

## We have great news!

Question 6, the [Green Economy Bond](#) was approved by 67% of Rhode Island voters on election day.

**Thank you! Thank you for affirming the importance of Narragansett Bay with your support for Question 6 and your support of Save The Bay's work to help it cross the finish line!**

Now begins the work of planning and implementing projects that will tackle stormwater pollution, brownfields cleanup, open space and recreation projects, and expansion of R.I.'s popular bike path network.

***Special thanks to Governor Raimondo, The R.I. General Assembly, R.I. Department of Environmental Management, the Yes on 6 RI coalition and the people of Rhode Island for this great win!***
